

Passover 2024

Friends,

We know that when God had the House of Israel (the 10 northern tribes) taken by Assyria (2 Kings 18:10,11) he appointed 390 years to them for their correction to bear their sin (Ezekiel 4:4,5) but they did not repent after 390 years, so God added to their curse seven times according to his law (Leviticus 26:21). For this reason, God could not bring about their return to the Land until 2,730 years came to an end.

We know the 2,730 years came to an end in 2023 because we found a Journal Article;

JOURNAL ARTICLE

Sargon II's Deportations to Israel and Philistia (716 – 708 B.C.)

Nadav Na'aman and Ran Zadok

Journal of Cuneiform Studies

Vol. 40, No. 1 (Spring, 1988). Pp. 36-46

This article gave us the correct date of the taking of the last of the 10 tribes and so we waited 20 years for 2023 to come. We knew that God would declare the end of the Leviticus curse on Yom Kippur 2023. We also knew from Ezekiel 38 & 39 that The House of Israel (the 10 tribes) cannot return until after the Ezekiel war of 38 & 39 (Ezekiel 39:21-29). We also know from traditions of the Talmud that the Ezekiel war will start on Sukkot on Shabbot.

And right on Sukkot, on Shabbot in 2023 after God made his declarations on Yom Kippur the Hamas war started. So, we know it is the beginning of the Ezekiel war. Hamas is the hook spoken of in Ezekiel 38 and Russia, Turkey and Iran and the other nations that join them will come down upon Israel on Passover 2024 to destroy Israel. (Ezekiel 38 & 39)

And we have a comet that is showing signs of breaking up that will arrive on Passover to provide the fuel for the miracle of the Ezekiel war. There is this massive comet that will be near enough to earth for stargazers to be able to view on April 21, 2024; called 12P/Pons-Brooks. And it has been having these "outbursts" or explosions of dust and gas over the last several months. But they say a collision is entirely out of the question since it is too far out. But it has been having explosions already and it will explode completely on April 21 and all the debris will reign down on Israel sometime during Passover 2024 (April 22 – 30).

This debris will be the fire, brimstone, sulfur, and hailstones that rain down on the enemies of Israel and destroy them. God will also destroy all haters of Jews within the Land of Israel, and God will turn to rubble all the Islamic structures in Israel that proclaim Allah; the prayer towers and Mosques.

God will clear the Temple Mount of Islamic structures during his miracle, and we have five red heifers that have been miraculously provided that will come of age after Passover to be the necessary sacrifice to begin the process for building the temple.

Because, before the temple can be rebuilt the first thing that is needed is a pure red heifer, without blemish or spot. And there had not been any red heifers in Israel before 1948. So, in 1948 they imported some and they started breeding red heifers to get a pure one. But, for 75 years, they have not been able to successfully get a pure red heifer that met the test of the Rabbi's.

Then, in 2023 in Texas where red heifers are abundant but not kosher for Rabbi's because according to Texas law they have to have a tag put in their ear at birth which gives them a blemish. But, in 2023 because of Covid the tag guy didn't show up and five red heifers didn't get tagged. And they turned out pure. And the Rabbi's went and checked them out, and the Rancher donated them to Israel, and they came last fall to Israel. And just after Passover in 2024 they will come of age to be the sacrifice that will purify the tools, the garments, the temple, and the people so that the temple can be built.

And so, the Temple will be built, the Ten Tribes of the House of Israel will return from the ends of the Earth, and Israel will have peace for seven years and "none shall make them afraid".

Shalom,
Daniel Ben Manasseh
