

The Rise of the AntiChrist?

I have my favorite few select individuals who are on my list for antichrist. And at the top of that list is Alexander Soros, the 37 year old son of multi-billionaire George Soros the evil Jew who destroys countries for his own profit.

But, as long as old George is in control of his billions nothing changes. Now, suddenly three days ago old George Soros handed control of his \$25 billion dollar empire to his youngest son Alexander Soros.

And young Alexander had his first interview and said, "that he was going to be more political". I BET!!!! Like in AntiChrist political.

Now here we are in 2023 and we have five red heifers in Jerusalem that will be ready for sacrifice this fall which could start the building of the temple. But, we have this golden dome of the rock sitting up there in the way. The Bible says the AntiChrist makes a deal with the Jews that allows the temple to be built. But we don't see any AntiChrist in sight.

Now, just in time, young Alex Soros takes over the evil empire and wants to be more political than his father. Will he be the one who makes a deal that allows the Jews to tear down that dome and build their temple?

Wait and see. But timing is everything and this timing is close.
